FARHAN HUSSAIN

Web Application & API Penetration Tester | CPENT Certified

Finding vulnerabilities. Testing boundaries. Building a safer web.

Bahawalnagar, Punjab, Pakistan ◆ +92 312 629 3731 ◆ farhan736hussain@gmail.com

linkedin.com/in/cyber-farhan-hussain ◆ github.com/thecyberfarhan ◆ tryhackme.com/p/farhan.hussain ◆ thecyberfarhan.github.io

OBJECTIVE

CPENT-certified cybersecurity practitioner with hands-on experience in web application and API penetration testing, network security and Active Directory. I identify, exploit and report vulnerabilities using industry-standard tools, and document every engagement as a public writeup (37 published, TryHackMe top 3%). Seeking a full-time role as a Junior Penetration Tester / Web Application & API Security Tester where I can contribute to a security-focused team and keep growing.

SKILLS

Web & API Security Burp Suite, OWASP ZAP, Caido, OWASP Top 10, SQL Injection, XSS (Reflected / Stored / DOM), Authentication & Access Control, API Security, SQLMap, ffuf, feroxbuster, WPScan, HTTP Request/Response Analysis, Vulnerability Analysis & Reproduction

Reconnaissance & Enumeration Nmap, RustScan, Masscan, Nessus, Nikto, Subfinder, Shodan, Maltego, Netcat, Wireshark, SMB / LDAP, NetExec (nxc), ldapsearch, Gobuster, Service Enumeration

Exploitation & Post-Exploitation Metasploit, Hydra, Hashcat, John the Ripper, Mimikatz, Evil-WinRM, Privilege Escalation (Linux / Windows), Shells & Meterpreter, Secretsdump, DPAPI, Pass-the-Hash, Lateral Movement (lab environments)

Active Directory BloodHound, Impacket, Kerberoasting, AS-REP Roasting, Password Spraying, DCSync, Golden / Silver Tickets, LDAP / SMB Enumeration, Attack Chains

Pivoting & Evasion Chisel, Ligolo-ng, Proxychains, AMSI Bypass, Tunneling & Pivoting, Cobalt Strike and Mythic (C2 familiarity)

Programming & Automation Python, Bash, PowerShell, JavaScript, SQL, Git & GitHub, Docker, pwntools, GDB, Scripting & Automation

Other Tools Kali Linux, Linux Administration, Windows, VMware, LM Studio, VS Code, Network Protocols, Aircrack-ng, Bettercap, tcpdump

CERTIFICATIONS

CPENT AI — Certified Penetration Testing Professional *Certified*

EC-Council | 2026

Practical, hands-on certification in advanced penetration testing and ethical hacking.

EXPERIENCE HIGHLIGHTS

Learning & Platforms

- TryHackMe: 100+ rooms, top 3% globally
- Hack The Box and HTB Academy, PicoCTF, PortSwigger
- Hacker101, HackerOne

Lab Writeups

- 37 detailed technical writeups published on GitHub, each with a key takeaway
- Featured: Mr Robot CTF, Mustacchio, Archetype, Cap, Overpass, Silver Platter, Watcher, tomghost

Focus areas Web & API Penetration Testing • OWASP Top 10 • Active Directory & Network Security • Linux & Windows Privilege Escalation • Python & Bash Scripting • Tooling & Troubleshooting

PROJECTS

Personal Site & GitHub Profile *thecyberfarhan.github.io*

HTML / CSS / JavaScript, no frameworks

- Hand-built portfolio with phone app layout, light and dark themes, live TryHackMe stats and a contribution skyline.

CTF-Writeups Repository *github.com/thecyberfarhan/CTF-Writeups*

Markdown, TryHackMe / Hack The Box / PortSwigger

- 37 structured writeups: recon, exploitation, privilege escalation, remediation and lessons learned.

Python Virtual-Environment Manager *Python, ~1,800 LOC, Kali Linux*

- CLI/TUI tool to create, manage and back up Python virtual environments; cloning, favorites, history, VS Code integration. Built with Rich and InquirerPy.

Personal Automation Scripts *Python / Bash*

- Automated repetitive tasks (Cloudflare tunnel, NTFS fixes, startup scripts) with a Rich / InquirerPy CLI.

EDUCATION

Intermediate / Higher Secondary School Certificate (HSSC), ICS *2023 – 2025*

Al-Hayat College | Result: 87%

GOALS & WORK PREFERENCES

- **Target roles:** Junior Penetration Tester / Web Application & API Security Tester / Offensive Security Intern / Bug Bounty Hunter
- Full-time, available immediately • Remote preferred, open to relocation • Own computer & stable internet • Comfortable with live troubleshooting and team collaboration
- Interested in Pakistan-based teams (e.g., Securetackles, BSides Pakistan, Cyber Jirga, Sudo Fuzzer)

LANGUAGES & INTERESTS

Languages English (Advanced), Urdu (Fluent) **Interests** Cybersecurity, Video Editing, WordPress, Digital Marketing, Linux & Customization, Gaming
